

Coladonato, Camillo¹

DOW Chemical¹

Including Nature at the Business Decision Table

Key words: Natural Capital, Sustainability

Abstract:

Camillo Coladonato, ANZ Environmental Remediation Leader at Dow Chemical, will discuss how Dow Chemical incorporates the value of nature into its current business decisions and how this fits into Dow's Valuing Nature long term sustainability goal for 2025. He will introduce the tools and process Dow follows to quantify the positive or negative impact that business decisions have on ecosystem services. Some real life case studies will help demonstrate the tangible benefits that application of the Natural Capital Protocol can yield to businesses.
